The 2027 membership card graphics commemorate the creation of The American Legion in 1919, symbolizing patriotism and honor for military service, reflects the values of The American Legion including community and support for veterans, and it serves to unite members under a common identity and purpose.

Remember the message, Be the One, reminds us that the number one issue facing the veteran community is suicide. Estimates of between 17 and 22 veterans or servicemembers take their lives each day. The rate of suicide for veterans is more than 50% higher than that of non-veteran adults. Even one is too many.

At its core, The American Legion continues its national platform to reduce the rate of veteran suicide. The Be the One campaign will destigmatize asking for mental health support, creating opportunity for those with mental health issues to speak freely and get the support they need.

How can you help? While this program is designed to help all veterans, we know that everyone responds differently to stresses,

have different life experiences, and have varying results in types of treatment. Be the One guideline intends to provide help before a crisis develops. The American Legion encourages you to Be the One to talk with others about how you are feeling, ask for help when you know you need it, know there are millions of people ready to help you and remember your family and friends' care.
